THURSDAY MORNING, JULY 4, 1867.

LOCAL MATTERS. JOB WORK.—We have now completed our office so as to execute, in the chortest possible time ALL KINDS OF JOB WORK, and we most respectfully ask the patronage of our friends.

Post Office Notice.

Post Office, Charleston, S. C., May 6, 1867. Hereafter, until further notice, the Northeastern Mails will close at 1.15 P. M., and arriving at the Depot at 9.45 A. M. will be ready for delivery at 11 o'clock. On Sundays the Post Office will open at 12.30 P. M. for one hour.

The Mails for South Carolina Railroad will continue to close daily at 6 o'clock A. M., and for the Savannah and Charleston Railroad at 6 A. M. on Mondays, Wednesdays and Fridays. STANLEY G. TROTT, P. M.

EXCURSIONS ABOUND THE HARBOR.—To those persons who wish to spend their holiday away from the heat and dust of the city, a fine opportunity is offered in the different excursions that will take place to-day. The fine steamers Fannie and Planler are advertised to sail around the harbor, and visit the different points. The Fannie is designed for the white and the Planter for the colored voyagers. In addition to these, the St. Heleno will also make the trip, and all who like a life on the ocean wave will be able to indulge their inclinations. The Fourth has always been celebrated by a fish or a sail, and the indications are that the old customs will not be forgotten.

THE YOUNG MEN'S CHRISTIAN ASSOCIATION.-The delegates from this city to the National Convention of the Young Men's Christian Association, held at Montreal, returned on the last trip of the Saragos sa. They were hospitably received both at the different cities en route and at Montreal. Tho Convention met at Montreal on the 19th ult., in the Zion Congregational Church, and elected the following officers: President, H. THANE MILLER, of Cincinnati. Vice-Presidents, the Hon. F. CHAM-BERLAIN, Hartford; E. A. BURRELL, Milwaukee; A. K. BROWNE, Washington; CHARLES YOUNG, Prince Edward's Island: F. Janes Clarton, Canada East W. F. C. GREGORY, Petersburg, Va. Secretaries, JAMES H. KELLOGG, Troy; JOHN A. DAWSON, BOS ton: SILAS FARMER, Detroit; ALFRED LANDAM, Montrer'. In the evening a large meeting of welcome was held in the American Presbyterian Church, at which a number of addresses were made by Major General RUSSELL, K. G. B., Chairman, Sir HENRY HAVELOCK and Gov. POLLOCK, of Pennsylvania, and others. Thursday, June 20th, was spent in listening to an elaborate essay on As sociation Bible Classes, written by Prof. Dawson, Vice-Chancellor of McGill University, Montreal, and a discussion upon it. The evening was devoted to a grand concert at the Victoria Skating Bink, where sacred music was sung by a choir of 150 singers, and an orchestra of 50, assisted by the bands of one of the regiments stationed at Montreal. On Friday, the corresponding members from different States reported, and Mr. Dawson's essay was further discussed

The remainder of the session was spent in trans-acting the business of the Association, in hearing the reports of committees, &c. Over 600 dele gates were present from all sections of the United States and Canada, and the greatest harmony and good fellowship prevailed. Arrangements have been made to send delegates to the World's Con-vention of Christian Associations, to be held at Paris, August 11, 1867.

BATHING IN PUBLIC PLACES.—The heat of the summer has caused a revival of aquatic sports, and many of the rising generation, who are almost amphibious in their natures, spend a greater por-tion of their time in the water. Unfortunately, this desire to keep cool has led many of them to infringe the city regulations, and though swim- ing from the public buildings and shipping, ming in the docks or other exposed portions of the they laugh at the laws and defy pursuit. This habit of bathing from the wharves and other public places has become a perfect nuisance to all persons in those neighborhoods, and stringent orders stop this amusement. For some time the majesty of the law was sufficient to preserve order, and a warning to the offenders was all that was consideressary, but at last some of the boldest venbey, and the water was soon thickly covered with bobbing beads. This habit of pubbathing has long been considered a great evil, but the efforts to stop it have so far been nugatory. It is not confined to one section, but as both sides of ist in infringing all rules of propriety and indulge in their sport almost openly. In former ered perfectly lawful to use the mill ponds at the extreme ends of the rafts, and other exposed portions were comparatively deser-ted. The growth of the City has necessarily brought the swimmers into public notice, and the West End was also compelled to appeal for pron. Deprived of their accustomed bathing laces, the swimmers have of late years been in the habit of defying the law, and notwithstanding the frequent raids made upon them or their clothing, have persisted in their conoxious practices Although the lower portion of the city has been tabooed, there are a number of places in the upper wards which could be used with impunity, and if certain spots were set spart by the council there would be fewer violations of the law, and the wharves would be more easily kept clear than at

THE FIRST ARRIVERSARY OF AMERICAN INDE-PENDENCE IN CHARLESTON, S. C.—We have before us a copy of the South Carolina and American General Gazette, dated Thursday, July 10, 1777. It Charlestown, by R. WELLS & Son, at the old printing house, great stationery and book store. The quaint style and antiquated appearance of the paper at once attract attention, but it is chiefly valuable because it contains an account of the first celebration of the 4th of July as a national anniversary. The article is so interesting that we republish it entire, and our readers can compare the sayings and doings of ye olden time with those of

"Last Friday, July 4, being the first anniversary of that memorable ÆRA, AMERICAN INDEPENDENCY, was ushered in with the ringing of bells and a general display of the American colors on all the forts and shipping. The Charleston militia and artillery were reviewed by his Excellency the President, his Honor the Vice-President, the Honorable Members of the Privy Council, &c. At 1 o'clock the great guns of the different forts (Fort Moultrie beginning) were fired to the number of seventy-six, alluding to the year 1776, when the thirteen United States emancipated themselves from the British yoke. An elegant entertainment was given at the Council Chamber by his Excellency the President to such of the members of the Legislature as were in town, to the clergy, civil and military officers, and a number of other gen-tlemen. After dinner, the following thirteen toasts were given, each accompanied by thirteen dis-charges from the field pieces belonging to Captain GRIEBALL'S Artillery Company, viz:

1st. The Free Independent and Sovereign States of America.

2d. The Great Council of America-May wis dom preside in all its deliberations.

8d. General WASHINGTON. 4th. The American Army and Navy-May they

be victorious and invincible. 5th. The Nations in Friendship or Alliance with

6th. The American Ambassadors at Foreign

Courts.

7th. The 4th of July. Sth. The memory of officers and soldiers who have bravely fallen in defence of America. 9th. South Carolina.

10th. May only those Americans enjoy freedom who are ready to die for its defence.

11th. Liberty Triumphant. 12th. Confusion, Shame and Disgrace to the Enomies May the foes to America (slaves to ty-

ranny) humbly fall before her. 13th. May the rising States of America reach the summit of human power and grandeur and enjoy

In the evening there were illuminations and fireorks and the W the least accident or disturbance.

In the same paper are several proclamations from his excellency JRO. BUTLEDGE, the Governor of the State, which recall forcibly the stirring times through which we have just passed, The Gazette was one of the first papers printed in Charles ton, and its time stained columns contain many names that are familiar, and others who have all passed away in the ninety years interim between the let celebration of the 4th and to-day.

THE CITADEL, we understand, is to be brilliantly illuminated this evening. A promenade concert will be given by the officers of the garrison, to which a number of our citizens have been invited. Later in the evening there will be a pyrotechnic display on the Green, which will make that spot the centre of attraction to the admiring crowd.

FIRE.- At 10 P. M., last evening, the alarm of fire brought out the engines, and the smoke issuing from the paint and oil store of Mr. DAVID BRIGGS, on East Bay, near Elliott street, soon drew them to that spot. It was evidently the work of an incendiary, as Officer Levy, of the Detective force, had passed the store but a few minutes before the alarm. The fire was discovered in the front of the building, near the door, but the promptness of the firemen soon subdued the flames. Mr. BRIGGS was insured in TUPPER & LANE'S insurance agencies, but the stock is only slightly injured.

THE STREET CARS AND THE FOURTH .- Notwithstanding the application made, the cars will not be stopped on the 4th, the Company believing that, as caterers to the public, they were compelled to run the machine in spite of the Declaration of Independence, GEORGE WASHINGTON, or any other nan. It was considered by some parties that to have the day observed properly, a thorough susension of all business was necessary, and that few persons were more entitled to a holiday than the conductors and drivers of the street cars. Unfortunately for them, this doctrine has not found favor in the eyes of the powers that be, and they will have to pursue their weary rounds, notwithstanding the national holiday.

COURT OF GENERAL SESSIONS AND COMMON FLEAS, Hon. F. J. Moses presiding .- The trial of Smart Chisolm, for the murder of his stop-daughter Cornelia Verdier, was continued, and the remain ing witnesses were examined. The entire morning was consumed in hearing this testimony, and the Court took a recess from 2 to 3 P. M. In the afternoon the argument for the defence was opened by Wm. TENNENT, Esq., who in an eloquent speech laid the case of his client before the jury: he reviewed the testimony advanced, and showed that he was indicted solely on circumstantial evidence, and there was not sufficient proof to base a conviction upon. Mr. TENNENT'S argument was clear, sound and logical, and though but a young lawyer, has shown that he has not mistaken his calling, but will evidently mount the legal ladder. H. W. SCHROEDER, Esq., followed Mr. TENNENT and was replied to by the Attorney-General. Judge Moses charged the jury, who retired to their room, and at a late hour brought in a verdict of Guilty, with a recommendation to mercy.

UNITED STATES CIRCUIT COURT, Hon. GEORGE S. BEYAN, presiding .- On motion of D. T. CORBIN, Esq., District Attorney, the order for a new jury list, the same as that given in the District Court was issued. No business of importance was

THE DAY WE CELEBRATE. -The anniversary of the Declaration of Independence on July 4th, 1776, has ever since been celebrated as a great national festival throughout the United States and wherever Americans are assembled over the whole world. From Maine to Oregon, from the great Lakes to the Gulf of Mexico, in every town and village this day has been ushered in with the ringing of bells, the firing of cannon, the display of the national flag, and other evidences of public rejoicing. A national salute is fired at rise, noon, and at sunset from every fort and man-of-war: the troops and patriotic processions parade the streets, the Declaration is read and Fourth of July orations delivered.

This was the programme in the past, but the recent war has materially changed the public sentiment regarding the day. In the South there will probably be few cities where the fourth will receive the same observances as were customary six years ago. The present poverty of the country and the absence of the militia displays, have tended in a great measure to destroy the old enthusiasm felt for the fourth.

Charleston will be enlivened on this occasion by the usual salutes, and by a liberal display of buntthough it has been with great difficulty that a sufsome years past they have been at a discount in the South. There will be a procession of different societies in the morning, which, Judging from the published programme, will be quite an affair.

The greatest feature of the day, however, and one which will recall more pleasing memories than any other, will be the sweet sound of St. Michael's nes, which are to be rung during the day. There are few persons who have not always associsted the day with the sound of these bells, and the music that will float in the air to-day will have a more powerfu! effect in reconciling us to the present than any display that could be made. In the afternoon those parties who are so dis-

posed can leave the city and visit the different points of interest in the harbor. The Fannie, Capt. PECK, and the St. Helena, Capt. RUMLEY, will make excursion trips around the harbor. These boats will be well supplied with music and refreshments, and afford the passengers a splenwhile this privilege was allowed, the wharves and did opportunity to enjoy the scenery and breathe the fresh air.

The state of the thermometer will compel many persons to exercise their ingenuity in trying to keep cool, and they can kill time and invigorate their heated systems by taking ices at the different gardens. As a holiday the day comes very opportunely, and is welcomed by none with more usiasm than by the typos, who are a hard working class and have few seasons of enjoyment.

THE MASON & HAMLIN CARINET ORGANS .- The highest musical authorities of the land have pronounced in their favor, as meeting a want which has long been felt, and combining more reliable qualities than any other instrument of the character now before the public. Among other advantages in their favor, they occupy little space, are gotten up in highly ornamental style, are remarkable for their great volume of sound, the ease with which they are played, the simplicity of their construction, and their adaptation to all kinds of music .- Pittsburg Dispatch.

TO THE LADIES. STOLL, WEBB & CO., will open this morning another case of those best quality prints, which they will sell at 124 cents at retail only; also, one case good longcloth at 121 cents.

ELYSIUS. A new and important remedy for married ladies Circulars can be obtained and the article supplied upon application to the wholesale agents. DOWIE & MOISE. Southern Drug House, No. 151 Meeting street.

TESTIMONIAL
SHEFFIELD SCIENTIFIC SCHOOL,
ENGINEERING DEPARTMENT,
YALE COLLEGE, November 16, 1866.

I have always recommended the Faber Polygrade
Lead Pencils as the only pencils fitted for both ornamental and mathematical drawing; but, after a thorough
trial of the American Polygrade Lead Pencils, mantiactured by the American Lead Pencil Company, New
York, I find them superior to any pencil in use, even to
the Faber or the old English Cumberland Lead Pencil
being a superior pencil for sketching, ornamental and
mechanical drawing, and all the ordinary uses of a lead
pencil.

pencil.

These pencils are very finely graded and have a very smooth lead; oven the softest pencils hold the point well; they are all that can be desired in a pencil. It gives me great pleasure to be able to assure Americans that they will no longer be compelled to depend upon Germany or any other foreign market for pencils.

LOUIS BAIL,

Professor of Drawing, &c.

ALL PENCILS ARE STAMPED: "AMERICAN LEAD PENCIL CO. N. Y."

In introducing this new Power into the market, we would state that the following are some of the advantages possessed by the "LITTLE GIANT" over all other Horse powers:

1. Its great strength on account of being double-geared, which not only doubles the strength by dividing the strain on twice the number of teeth, but by gearing on both sides of the wheels it equalizes the wear on the shafts, and materially lessens the friction, enabling the horses to do much more work than with any other Power. JUST RECEIVED—
A lar e supply of STATIONERY
PHOTOGRAPHS, PHOTOGRAPH ALBUMS
POCKET BOOKS, DIARIES for 1867, Etc.

horses to do mach more were horses to do mach more were prover.

2. Its compactness and extreme portability, it weighing about one-half as much as other Horse Powers, and occupying but one-third the space, it can be packed in small boxes, thus saving much expense. It is so simple that the most ignorant porson would have no difficulty in putting it together.

3. The facility with which it can be adjusted to any kind of machinery at any angle, either on the ground or over head, without moving it from its foundation, will be appreciated by farmers and planters as specially adapted for driving Cotton Gins.

OPINIONS OF THE PEOPLE:

ALLENDALE, BARNWELL DISTRICT, S. C., March 1, 1867. Mestrs. Little & Marshall:

GENTLEMEN: I usod, during the past season, one of "Ingersoll's Portable Cotton Presses," purchased of you last september. I have always been prejudiced in favor of the "Screw Press," and nothing but dire necessity induced me to try any other. I take pleasure, however, in adding my testimony in favor of its entire adaptation to the wants of a cotton plantation. It has surpassed my most sanguine expectations. I have packed with but two hands, yet I prefer four—two at each lever. My bales all weighed over 500 lbs. The first lot I sent to market averaged 562 lbs. My impression is that 500 lbs is about the capacity of the Press, and a greater number of pounds subject the follow-block to too much risk, unless the sides of the cotton box was increased. It would add greatly to the value of the Press if the cotton box was ton inches longer. In haste, I am, very respectfully, Your obedient sorrant, &c., B. W. LAWTON. P. S. I took my Press down and carried it some four miles to pack the crop of a neighbor, who failed to have a "Screw" built; he was so much pleased that he has determined to abandon the "Screw" and purchase "Ingersoll's Press."

Develop of Kend's Mountain Rallagoad Company.

OFFICE OF KING'S MOUNTAIN RAILROAD COMPANY, YONEVILLE, S. C., April 15, 1867.

GENTLEMEN: I have just received your letter of February 14th—upon my return to this place, after an absence of two months—and this reply may be too late for your "Descriptive Circular of Ingersoll's Cotton Press."

The Press I used in packing my cotton last year worked admirably, packing, with ease from 500 to 525 libs. With good active hands to work it, I am satisfied that from eighteen to twenty bales might readily be packed in a day.

This Press combines the advantages of lightness, and consequent portability and simplicity (being easily managed by any one of ordinary intelligence). Great compressing force, with little motive power, and "last, but not loast," it is worked entirely by hand, thus saving for the farm horses the hard labor imposed upon them by the use of the ordinary "Scrow."

Respectfully, &c., yours,
TO LITTLE & MARSHALL, Charleston, S. C.

OTEVENS HOUSE, Nos. 21, 23, 25 AND 27

Broadway, N. Y., opposite Bowling Green (n the European Plan.—THE STEVENS HOUSE is well and widely known to the travelling public. The location is especially suitable to merchants and business men; it is in close proximity to the business part of the city—is on the highway of Southern and Western travel—and adjacent to all the principal Railroad and Steamboat depoise. The STEVENS HOUSE has liberal accommodation for over 300 guests—it is well furnished, and possesses every modern improvement for the confort and entertainment of its inmates. The rooms are spacious and well ventilated—provided with gas and water—the attendance is prompt and respectful—and the table is generously provided with every delicacy of the season at moderate rates.

The rooms having been refurnished and remodeled, we are enal—d to offer extra facilities for the comfort and pleasure—of our guests.
